Time Credits

Statement of Reasons - Include all applicable aggravating and mitigating factors

AGGRAVATING FACTORS

3. The risk that the defendant will commit another offense.
6. The extent of the defendant's prior criminal record and the seriousness of the offenses of which he/she has been convicted.
9. The need for deterring the defendant and others from violating the law.

MITIGATING FACTORS

10. The defendant is particularly likely to respond affirmatively to probationary treatment.

14. The defendant was under 26 years of age at the time of the commission of the offense.

On 7/11/2022 Galloway Township Police responded a disturbance involving defendant with an unknown weapon allegedly attacking the victim. Officers observed several males and defendant in the driveway. Defendant was holding a crowbar in his left hand. It was also discovered that he had an active warrant for his arrest stemming from earlier in the day with defendant and the victim. The Officers ordered defendant to drop the crowbar to which he complied. He was detained and was placed in handcuffs. The victim stated that defendant punched him in the face (right cheek), he then stumbled back injuring his right foot when he fell. His foot was swollen, and he was immobilized.

The defendant is 24 years old, single with no children. His reveals 6 known arrests/complaints across 3 states; Ohio, Florida, and New Jersey with no noted PRIOR convictions. The instant matters will represent the defendant's 1st and 2nd known indictable convictions. The defendant has pending charges out of Atlantic County Central Municipal Court for Harassment with no scheduled events. He also has an active bench warrant out of Ohio for Failure to Appear. No juvenile court history or domestic violence case list was located for this defendant in New Jersey.

The court finds aggravating factor 3, the risk that the defendant will commit another crime. This history convinces the court that defendant is likely to recidivate. The court weighs aggravating factor 3 as moderate. Aggravating factor 6 is present, due to the seriousness and extent of the prior convictions or adjudications as enumerated previously. The court gives this minimal weight. Based upon the same evidence (Cont...)

Continuation

STATEMENT OF REASONS (Cont.)

discussed previously, this court finds aggravating factor 9, as to both general and specific deterrence. The court finds aggravating factor 9 and gives it substantial weight. The court finds mitigating factor 10 as the defendant is particularly likely to respond affirmatively to probationary treatment but only if defendant complies with the terms & conditions of the probation. The court finds mitigating factor 14 as the defendant was under 26 years of age at the time of the commission of the offense. The court finds that in balancing the factors, given not just their number but their quality and also their nature, the aggravating factors clearly and outweigh the mitigating factors.

This was a negotiated plea between the State and the defendant. Thus, there is a presumption of reasonableness. The sentence recommendation contained in the plea agreement is appropriate under the facts and circumstances of this case and it will be followed.
